

【Various circumstances of Mt.Fuji climbing】

- ◆**Mt.Fuji climbing season/**●From July 1st to early September. Opening may be delayed depending on the residual snow conditions, or closing may be accelerated. ●The most crowded period will be concentrated on weekends, 3 consecutive holidays in July and “Obon” holiday in August. People who want to climb slowly, I definitely recommend climbing on weekdays. ●In Japan, the rainy season till the middle of July, and the typhoon season after August 15th. ●In September,you can enjoy climbing Mt. Fuji with clear air and comfort.

- ◆**About regulation of car/**●Fuji Skyline of Fujinomiya trail road is regulating car from July 1st to September 10th. ●If you are coming by car, please stop the car at the “MIZUGATUKA park” .and please wait for our bus. Parking lot is wide, many staff are arranged, there is no congestion. There is no worry about traffic jam on the way.

- ◆**On the weather of Mt. Fuji/**●Mt.Fuji summer is the same as Tokyo’s winter. Fuji average temperature in July and August is 6 degrees. ●The temperature difference from the flat is over 20 degrees and the temperature around the summit before dawn drops to below freezing, but there is no tree in Mt. Fuji and it receives direct sunlight during the day, so it is quite hot on the mountain trail. ●From the start of climbing to the top, you can experience midsummer and midwinter in just one day.

- ◆**About the toilet of Mt. Fuji/**By 2006, the toilet at Mt. Fuji replaced all toilets in a mountain hut with an environmentally friendly type.It is very comfortable compared to before. ●The toilet of the hut can be used free of charge for guests, but for other mountain huts a charge of 200 yen is required for a fee. ●So please do not forget to prepare ¥100 coins. ●Toilets are used by many people, so please use them clean. Please do not throw your garbage.

- ◆**About Mt. Fuji and garbage/**●As you probably know, of course there is no trash box in Mt. Fuji.So please take your own garbage home with you. ●.Please prepare 2 or 3 garbage bags and try not to have too much waste.

- ◆**About the mountain hut/**●The mountain hut of Mt. Fuji is a service area of buying drinks and sweets at a shop and using a toilet. ●Depending on the weather, it is also a shelter cabin. ●However, there is no water supply anywhere, of course there is no bath. ●And there is no private room when you sleeping. ●Even in the middle of the night people are coming in and out, so comfort like normal accommodation can not be expected. ●Please think that I am thankful for recovering physical strength just by being able to lie down on the bed at mountain.

●Another climber sleeps tired after you. ●Talking in the bed is not allowed. ● Sounds that mess around with baggage are also anxious. ●Please minimize the use of lights. ●In the evening, you can enjoy the light of the lower boundary city and the wonderful starry sky from the hut.

◆**About cell phone or smart phone/**●On the fifth station and the summit, most mobile phones are available. ●In the high season, a temporary antenna stands also at the top of the mountain, making it easier to talk, but radio waves may become unstable depending on location and weather conditions. ●Charging can not be done in the mountain hut. ●Be careful of running out of emergency batteries.

◆**What is "OHACHI-MEGURI"?** /●Walking around the crater on the summit of Mt. Fuji is called "OHACHI-MEGURI." ●Many people aim for KENGAMINE at the highest point after climbing. It is about 3 kms around. About 1 hour 30 minutes. ●It is attractive to be able to enjoy a dynamic crater and the surrounding scenery all together. ●If there is no problem on the weather on the day, if you have time and physical strength, please enjoy it. ●After arriving at the summit on that day, please apply for those with physical strength and energy. ●It is 1000 yen per person.

◆**To female climbers/**●In order to clean the skin that is covered with sweat and sand, it is recommended that women prepare 350 mℓ of water in addition to drinking water. ●It can be used to rinse mouth, to include it in towels and cotton and wipe the skin. ●Please reduce the contents of the backpack as much as possible to the utmost and make it light.

◆**About altitude sickness/**●Depending on the constitution, We will guide you slowly so as not to suffer from altitude sickness. ●If you have a lack of sleep or a cold, it tends to be high altitude sickness. For prevention, on the previous day, please take a day off earlier than usual and take a good sleep at home. ●Deep breathing and hydration are also effective.

◆**For those who join from a distance.../**●If you need hotel accommodation the day before climbing, stay overnight in Tokyo, Nagoya, Osaka etc and please come by the Shinkansen on that day. ●There is only a business hotel around "Shin-Fuji station" . ●There is nothing at night around the station. ●If you wish to stay at a hot spring hotel after descending, we will send you to the entrance of Hotel in "Fujikawaguchiko-machi" area. ●For hotels in Fujikawaguchiko, please make a reservation by yourself, referring to our "HP franchise hotel".
